

PRODUCT CATALOGUE

Welcome to National Medical Consumable Industries Co. ksc

Founded in 1989 in a makeshift office located in a basement, National Medical Consumable Industries Company has established itself as a market leader in Kuwait's foodservice consumables and medical disposables industries.

A private KSC Closed company, we have been at the heart of Kuwait's packaging industry for the past three decades, sourcing & distributing a wide range of disposable products to the foodservice & retail operators.

In the early years, packaging in the foodservice industry was a functional means to an end. Food packaging has evolved over time and in the modern world, has progressed towards eco-friendly substitutes and towards a more aesthetic & superior quality range of products. Natmed was established on the premise of developing this segment of the market in Kuwait and is still ingrained in the company's core value of operation today. Committed to innovation, customization, competitive pricing, and quality, we take pride in our extensive range of quality food packaging suited to every foodservice establishment.

On the medical & hygiene front, we are an approved supplier to a majority of the private & public hospitals including the Ministry of Health for a wide range of product categories, which includes sanitizers, gloves, incontinence pads, surgical disposables & wound care products.

This catalogue is an attempt to showcase our ever-changing & expanding range of products and should act as a guide to all our existing & potential customers.

Aluminium foil containers are very versatile & easy to store options for food packaging. Although the containers are light-weight, they preserve the food quality by acting as an efficient barrier to protect food against light and air along with providing significant heat resistance.

Customized Products

You Imagine It...

We try to design it for you...

“ When it comes to advertising, we can assist you in customizing your product. Using standard, unprinted products doesn't help remind your customers (or potential customers at catered events) about where to return for the great food. Using printed products will help you overcome that situation.

We can also assist you in adapting your graphics to the printing requirements of the product.

We have an in-house graphics department that can prepare your artwork and coordinate it with any other packaging products you want to use such as take out boxes, sandwich wraps, burger wraps, basket liners, tray liners, paper and plastic cups, drink coasters, handled carryout bags, paper bags and more.

Custom printed products are a terrific advertising opportunity

All of the products you see on this page are customized designs that have been created by our in-house graphic design team specifically for individual customers.
